ABOUT US

Established in 1997, Delta Masr Group has emerged as a leader in Egypt's agricultural and poultry industries. With a diversified portfolio encompassing feed production, livestock, poultry, and agricultural investments, the company operates through five distinct sectors. Each sector is dedicated to providing high-quality and sustainable products for local and international markets.

Delta Egypt Group is headquartered along the Alexandria Desert Road, where it continues to expand its operations and innovations to meet growing market demands.

What truly sets Delta Masr Group apart is its seamless operation across diverse sectors, including poultry, animal production, feed production, agriculture, and grain trading. This integrated approach creates unparalleled synergy, allowing the company to control the entire value chain—from sourcing raw materials to delivering finished products. This ensures exceptional quality, efficiency, and reliability, making Delta Masr Group a leader in its industry.

CHAIRMAN MESSAGE

At DMG, our mission is clear: to transform Egypt's food industry into a pillar of national security. Our commitment goes beyond business—we aim to ensure food safety and quality while fostering innovation, sustainability, and growth for all stakeholders.

Farmers, the backbone of our industry, are at the core of our work, and we strive to provide them with the latest research and technical expertise. Employees drive our progress, and we are dedicated to creating an ambitious environment for their success. Customers are our partners in excellence, and we continually strengthen our collaboration to achieve shared goals.

Our vision is clear: to lead the transformation of Egypt's food and poultry sectors by embedding sustainability, enhancing quality, and expanding our horizons with trusted partners. Through rigorous research and development, we aim to deliver products that not only meet but exceed global standards.

Looking ahead, our focus remains on continuous improvement, enhancing our product offerings, expanding partnerships, and reaching more end consumers. We aspire to lead by example, proving that with dedication, innovation, and collaboration, we can build a stronger, more sustainable industry.

Personally, I am deeply grateful, and this drives my unwavering commitment to continue building—creating opportunities to reduce unemployment and contributing meaningfully to food security.

COMPANY OVERVIEW

Revenue:

DMG generates **over 200 million USD annually**, reflecting its strong market presence and consistent growth across its diverse sectors.

This significant revenue is driven by the success of the company's operations in poultry, animal production, feed production, agriculture, and grain trading

Capacity:

DMG's operations span across multiple sectors with considerable production capacities:

- **Poultry Sector:** Includes production capacities such as **10 million birds annually and 80 million eggs** for hatching annually.
- **Animal Production:** The dairy farm has an annual milk production capacity of **20,000 tons of milk**.
- **Agriculture:** Cultivates **2,200 acres of land** with diverse crops like olives, pomegranates, grapes and citrus fruits.

DMG PORTFOLIO

POULTRY

Delta Masr Group (DMG) owns and operates several fully equipped mothers' stations, utilizing the latest technologies in the market, with a combined annual capacity of 500,000 mothers. In line with its growth strategy, DMG is planning to establish three new mothers' stations along the Cairo-Alexandria desert road (Kilo 76), each with a capacity of 150,000 mothers per year. These stations will further enhance the company's ability to meet the rising demand for high-quality poultry production.

VISION

To become a regional leader in the agricultural and poultry sectors by setting benchmarks in quality, sustainability, and innovation.

We aim to contribute to a healthier world through sustainable practices and superior food products.

MISSION

To produce and supply high-quality agricultural and poultry products that meet international standards. We are committed to sustainability, community development, and leveraging cutting-edge technology to ensure the well-being of our customers, employees, and the environment.

POULTRY

The poultry sector at DMG is divided into the following key sectors:

01

MOTHER STATIONS

This sector focuses on the production of high-quality fertilized eggs for hatching.

DMG's Breeders Division have a production capacity of **70 million eggs** per production cycle, ensuring a steady supply of healthy and fertile eggs for the hatching process.

02

HATCHING SECTOR

In this sector, DMG operates hatching labs that have a production capacity of **80 million eggs** annually, producing around **80 million and 70 million chicks** each year.

These chicks are crucial to the poultry lifecycle, feeding into the next stages of production.

03

FATTENING SECTOR

The fattening sector handles the growth and development of broiler chickens.

With a production capacity of **10 million birds** annually, this sector ensures a high-quality supply of poultry for both local and international markets, contributing significantly to the company's overall poultry production.

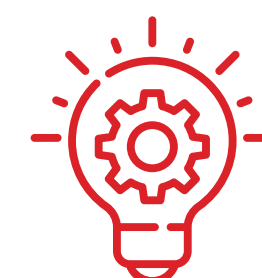

These interconnected sectors work in synergy to maintain a sustainable and efficient poultry supply chain, supporting DMG's commitment to producing healthy and safe poultry products.

CORE VALUES

Integrity:

Upholding transparency and ethical practices in all business operations.

Innovation:

Continuously improving processes to deliver superior products.

Sustainability:

Balancing economic growth with environmental stewardship.

Excellence:

Maintaining the highest standards of quality and performance.

Community Focus:

Contributing to the development and well-being of local and global communities

FEED PRODUCTION

Delta Masr Group owns a state-of-the-art feed factory spread across 30,000 square meters, dedicated to producing a wide variety of high-quality feed for chickens, livestock, ducks, geese, turkeys, and local chicken breeds. The factory is equipped with two advanced production lines, each capable of producing 25 tons of feed per hour, allowing for a total annual production of approximately 300,000 tons. To ensure optimal production efficiency, the facility includes extensive storage capacities, with granaries capable of holding up to 5,000 tons of raw materials such as seeds.

This robust infrastructure supports the company's commitment to providing top-tier feed solutions, meeting the growing demand in both domestic and regional markets.

ANIMAL PRODUCTION

Delta Masr Group (DMG) operates a highly efficient animal production facility spanning 19 acres. The company recently inaugurated the “Delta Dairy Project” , which boasts a capacity of 1,500 heads of premium dairy cattle, including world-renowned breeds such as Holstein and Friesian.

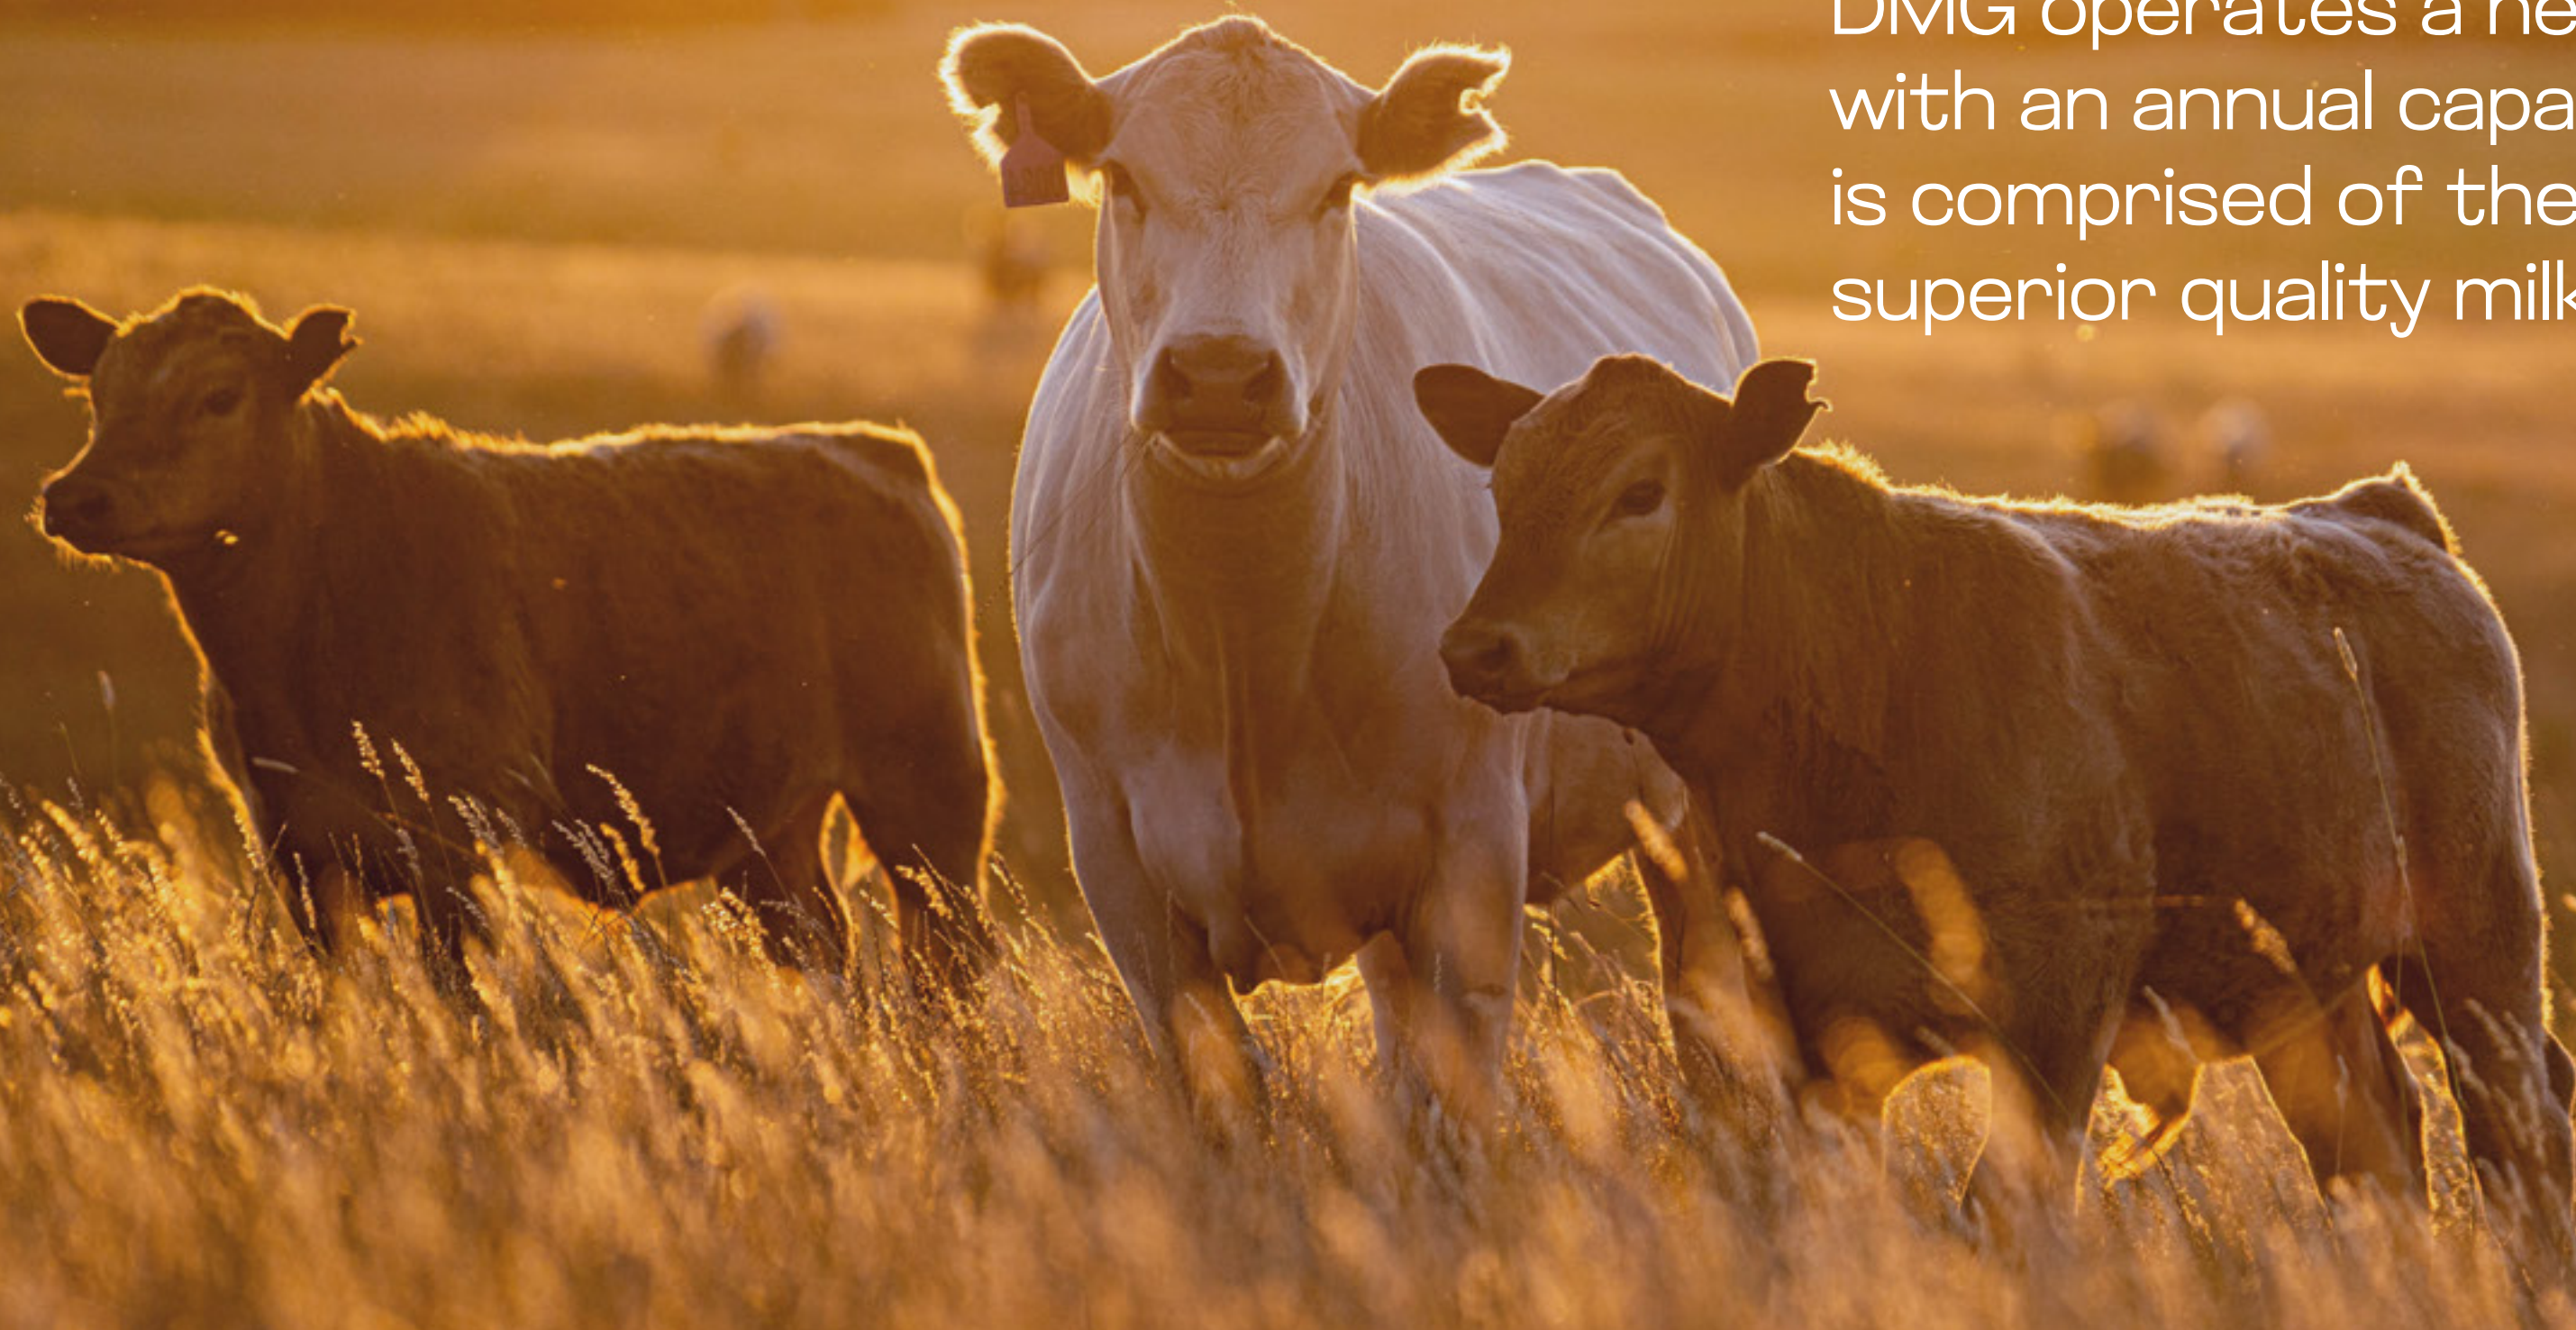

In addition, DMG owns a robust herd of 10,000 Barki sheep, known for their resilience and high productivity. Looking ahead, the company plans to expand its operations further with the establishment of a fattening cattle station on Al Alamein road, set to open in expansion. This new facility will have a capacity of 5,000 cattle, reinforcing DMG’s commitment to leading the industry in both dairy and meat production.

ANIMAL PRODUCTION

DMG's Animal Production Sector focuses on the breeding and production of livestock to ensure high-quality dairy and meat products. Key areas include:

DAIRY CATTLE

DMG operates a herd of dairy cows for milk production, with an annual capacity of 20,000 tons of milk. The herd is comprised of the finest international breeds, ensuring superior quality milk for both local and export markets.

AGRICULTURE

Delta Masr Group (DMG) owns Delta Masr for Agricultural Investment, a company that manages 2,200 acres of desert land, with this area already reclaimed and cultivated. The land is primarily planted with a variety of high-value fruits and vegetables, including capsicum, cucumber, pomegranates, citrus, grapes, peaches, and pears. DMG is a major player in the agricultural export market, producing tables grapes annually, which are exported to multiple countries around the world.

The group also produces pomegranates each year, making them a key supplier to global markets. Through its innovative agricultural practices, DMG continues to contribute to the expansion of Egypt's agricultural sector, focusing on sustainability, quality, and international trade.

AGRICULTURE

The Agriculture Sector at DMG focuses on the cultivation of high-quality crops and fruits to meet both local and international market demands. Key activities include:

AGRICULTURAL LAND

DMG owns and cultivates 2,200 acres of agricultural land, where various fruits and trees are grown. These include olive trees, pomegranates, grapes, Barhi dates, oranges, tangerines, and lemons. The diverse crops ensure a steady production of high-quality agricultural products for both fresh consumption and export.

GRAIN TRADING

Delta Masr Group (DMG) owns Delta Masr for Agricultural Investment, which manages 1,500 acres of desert land, with 80% of the land reclaimed and cultivated.

While the focus is primarily on high-value fruits and vegetables, including capsicum, cucumber, pomegranates, citrus, grapes, peaches, and pears, DMG also excels in grain production. The company produces corn, soybean meal, DDG (Dried Distillers Grains), CGM (Corn Gluten Meal), and SFM (Corn Fermentation Meal), all optimized for superior protein and energy compositions.

DMG's commitment to quality ensures consistent availability and adherence to the highest quality standards, making the company a reliable supplier in both local and international markets. Through advanced farming techniques and strategic investments, DMG continues to enhance Egypt's agricultural production, contributing to food security and export growth.

GRAIN TRADING

The Grain trading Sector at DMG plays a vital role in ensuring the availability of high-quality raw materials for animal feed. Key activities include:

ANIMAL FEED RAW MATERIALS

DMG imports and trades raw materials for animal feed, with an annual import capacity of nearly 400,000 tons. These raw materials are essential for the production of feed for poultry, livestock, and other animals, ensuring the highest quality nutrition for the animals.

COMPANY STRATEGY

Delta Masr Group thrives on the synergy between its core poultry farming operations and its diversified agricultural activities. By integrating advanced technology, research, and innovation, the company ensures the highest standards of safety, sustainability, and quality. Our brand embodies reliability, trust, and dedication to delivering healthy food solutions to communities worldwide.

BRAND CONCEPT

Delta Masr Group thrives on the synergy between its core poultry farming operations and its diversified agricultural activities.

By integrating advanced technology, research, and innovation, the company ensures the highest standards of safety, sustainability, and quality. Our brand embodies reliability, trust, and dedication to delivering healthy food solutions to communities worldwide.

OUR STORY

THE “WHY?”

At Delta Misr Group, we aim to revolutionize Egypt’s agriculture and livestock industries with innovation, quality, and sustainability. Committed to feeding the world responsibly, we strive to set new standards while ensuring future generations have access to safe, nutritious food.

THE “HOW?”

We’ve grown through strategic expansion, innovation, and a focus on quality. From building fattening farms to advanced hatcheries and feed plants, we invest in technology, infrastructure, and talent, optimizing every stage of the supply chain for sustainability and efficiency.

THE “WHAT?”

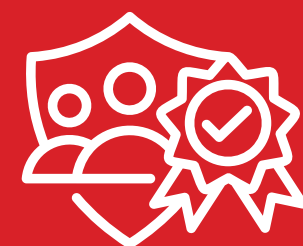

Delta Misr Group is a leader in Egypt’s agricultural and livestock industries, operating:

- **Breeding Farms** for fattening and breeding stock.
- Poultry Hatcheries producing millions of chicks annually.
- **Feed Production Factories** ensuring top-quality livestock nutrition.
- **Dairy Farms** for milk and dairy products.
- **Agricultural Operations** cultivating fruits and grains for local and export markets.

OUR VALUES

Innovative

Professional and Trustworthy

Sustainable and Ethical

Trustworthy expert

Sustainable leader

Empathetic Innovator

- A knowledgeable and reliable partner with a long track record of success.

- Leading the market through innovation, while caring for the land and the communities.

- A visionary company that nurtures growth and empowers businesses for long-term success.

GOALS

- DMG's Commitment to a Sustainable Future: How We Are Advancing the 17 SDGs.
- How DMG is Contributing to Sustainable Development Goals (SDGs)
- At DMG, sustainability is at the core of our operations. We are proud to be aligned with the United Nations' Sustainable Development Goals (SDGs)..

HERE'S HOW WE'RE MAKING A DIFFERENCE:

GOAL 01:

- Zero Hunger
- Ensuring Food Security and Sustainable Agriculture

DMG is actively involved in ensuring food security and advancing sustainable agricultural practices.

Through our extensive farming operations, which include the cultivation of grains and other crops, we contribute to local food production, reduce reliance on imports, and promote sustainable farming practices that ensure a stable food supply for communities in Egypt and beyond

GOAL 02:

- Decent Work and Economic Growth
- Promoting Sustainable Employment

We are committed to promoting decent work and economic growth by creating job opportunities across our operations.

From our feed production factories to our agriculture and livestock farms, DMG supports thousands of workers, ensuring fair wages, health benefits, and a safe working environment, all while driving Egypt's economic growth.

HERE'S HOW WE'RE MAKING A DIFFERENCE:

GOAL 03:

- **Responsible Consumption and Production - Reducing Waste and Promoting Sustainability**

DMG adopts responsible production methods by reducing waste across all stages of production.

From sustainable feed production to waste management practices on our farms, we strive to minimize our environmental impact and promote the efficient use of resources, contributing to sustainable consumption and production patterns.

GOAL 04:

- **Climate Action - Combating Climate Change**

We take proactive steps to combat climate change by integrating sustainable practices into our daily operations.

By investing in energy-efficient technologies, promoting sustainable water usage, and continuously reducing our carbon footprint, DMG is playing its part in mitigating climate change and working toward a more resilient future.

HERE'S HOW WE'RE MAKING A DIFFERENCE:

GOAL 05:

- Life on Land - Protecting
- Ecosystems and Biodiversity

As part of our commitment to environmental preservation, DMG actively works to restore and protect terrestrial ecosystems. We focus on sustainable land use, afforestation, and soil health to ensure the long-term viability of agriculture while protecting biodiversity.

Our initiatives help combat desertification and promote sustainable land management practices.

GOAL 06:

- Partnerships for the Goals
- Strengthening Global Partnerships

DMG recognizes the importance of partnerships in achieving sustainable development. We collaborate with local and international organizations, governments, and industry leaders to share knowledge, exchange resources, and jointly work toward creating a more sustainable future for all.

HERE'S HOW WE'RE MAKING A DIFFERENCE:

Through our continued dedication to these six SDGs, DMG is helping to pave the way toward a healthier, more sustainable world. We will continue to embrace innovation, sustainable practices, and global partnerships to drive meaningful change for both our local communities and the planet.

MILESTONES

FOUNDATION

1997

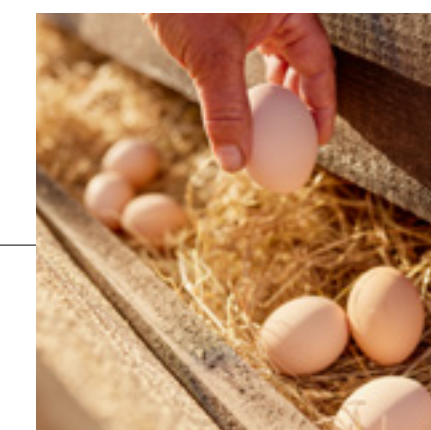

Established with a poultry farm raising 40,000 fattening mothers.

EXPANSION

2001

Opened a hatchery with a capacity of 24 million chicks per year.

2000

Began grain import and export activities.

2004

-
2006

Increased Breeding Farms to five, raising capacity to 240,000 mothers.

DIVERSIFICATION

SCALING OPERATIONS

MILESTONES

NEW VENTURES

2006

Launched a sheep farm.

AGRICULTURAL GROWTH

2011

Cultivated pomegranates.

2009

Established Delta Masr for Feed.

FEED PRODUCTION

MILESTONES

LIVESTOCK INITIATIVES

2015 • Started a dairy farm.

2015 • Began cultivating grapes and oranges for export.

EXPORT EXPANSION

BROILER PRODUCTION

2016 • Scaled up to produce broiler chickens .

2017 • Expanded mother stations to eight, accommodating 400,000 Breeders.

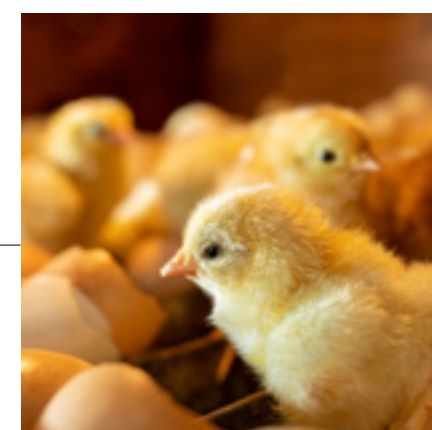

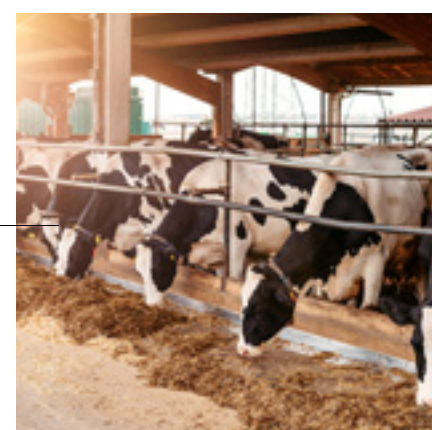

POULTRY CAPACITY GROWTH

MILESTONES

ENHANCED OPERATIONS

2018

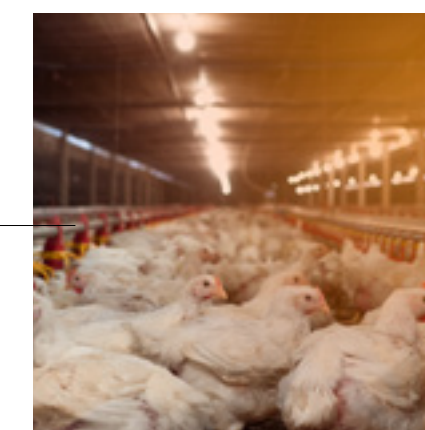

Reached 450,000 Breeders and 1,500 dairy cattle.

FUTURE BROILING FARMS

2019

Planned expansion along Al Alamein Road

2019

New lab established to produce new hatchery

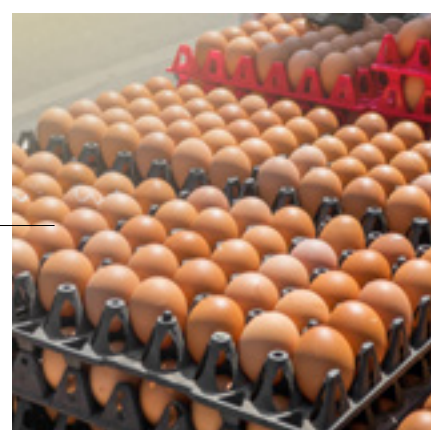

INNOVATION IN HATCHING

MILESTONES

BROILER EXPANSION

2022

• Increase capacity to 1.2 million/ cycle

2022

• Built new hatchery facility

EXPANSION

LAND ACQUISITION

2023

• Acquire land for cultivation of oranges and olives
